

## CMS R8210 - New Features and Improvements

- **Dashboard Improvements**

We've updated the dashboard to provide easier visibility of site-based status information. We've also cleaned up the look and feel, and made it easier to customise the various widgets.

## CMS R8210 - Maintenance

- **Diagnostics:** Improved error message wording when invalid data is encountered.
- **Reports:** Fixed issue with inability to access company reports for specific types of users.
- **Speed Test Server:** Fixed issue with inability to configure the speed test server for specific types of users.

Have a suggestion to improve your experience with the Mako System?
