

CMS R8550 - New Features and Improvements

● Single Sign On

We've added support for OpenID Connect-based Single Sign On user authentication. Initial support includes Microsoft Azure and Okta as authentication providers. Please note the login screen has changed slightly as a result.

CMS R8550 - Maintenance

- IP Groups: Added support for bulk uploading entries into an IP Group.
- Speed Tests: Fixed issue with results displayed in UTC instead of local time.
- Speed Tests: Fixed various cosmetic issues.
- Webhooks: Added makoType to outbound webhook metadata.
- Wi-Fi: Fixed issue with selecting 80Mhz bandwidth.

Have a suggestion to improve your experience with the Mako System?
We'd love to hear from you! support@makonetworks.com
