

CMS R8610 - Features and Improvements

● Merchant PCI Improvements

We've added a six-monthly user access review task, required by PCI DSS 4, to make it easy to identify everyone's access in your company.

● Periscope Improvements

We've added the ability to specify a custom start page for your periscope app. The window now also opens with the location bar available so users can type in exact URLs of their choosing.

● Universal Search Improvements

We've continued to improve the universal search experience, and simplified the search screen for easier navigation for the most common searches.

CMS R8610 - Maintenance

- ATG: Improved reporting of ATG contact information.
- Copy Mako: Fixed issue with searching for Makos not working under certain conditions.
- Diagnostics: Added VPN Cloud Route Check diagnostic.
- Enterprise Templates: Improved UI for selecting hardware restrictions.
- General: Improved performance of shortcuts menu.
- Hardware: Fixed issue converting a 5600 between AP and Security Gateway modes where the Internet was previously using a VLAN.
- Importing Makos: Improved handling of errors when the imported data is missing required fields.
- IPsec: Fixed issue with creating tunnels across Makos in different companies.
- IPsec: Fixed issue with creating tunnels using AES-GCM.

- Network Flow Diagram: Added support for displaying OpenVPN configurations.
- PCI DSS: Fixed issues with the configuration review screen displaying duplicate information.
- PCI DSS: MFA authentication is automatically enabled and required when enabling PCI DSS for a company.
- Periscope: Added warnings if the Periscope window is blocked, or if the Mako Device is running too old firmware.
- Periscope: Improved performance of Periscope for non-US users.
- Site Network Diagram: Improved ARP table to make the information more relevant.
- Site Network Diagram: Improved the display of data on the diagram.
- UI: Added minor improvements and touchups to the UI.

Have a suggestion to improve your experience with the Mako System?
We'd love to hear from you! support@makonetworks.com
