

## CMS R7910 - New Features and Improvements

- **Mako 7600 and 8600 SFP models**  
We've added new SFP-equipped hardware models: 7600-S and 8600-S.
- Diagnostics: We've added a Cellular Reset diagnostic to all cellular enabled Makos.
- Diagnostics: We've added Dynamic routing diagnostics.
- Reports: Added VLAN Trunk column to the Network Availability Report.

## CMS R7910 - Maintenance

- Firewall: Fixed issue adding firewall rule without specifying the correct interfaces.
- Firewall: Improved performance of the intranet configuration screen.
- Reports: Fixed issue with sorting syslogs.
- Reports: Fixed issue with sorting audit events.
- Status Widget: Added port labels to switch ports.
- Switches: Fixed issue with incorrect reported port status.
- UI: Fixed various cosmetic issues on desktop and mobile browsers.
- VPN Cloud: Fixed issue with deleting VPN Clouds with firewall rules.
- Vulnerability Scanning: Resolved issue with duplicate scanner IDs.

Have a suggestion to improve your experience with the Mako System?
